

TOWN OF NEW LISBON

LAW PROHIBITING THE ACCUMULATION OF GARBAGE AND JUNK

Section 1 – Legislative Authority.

This local law is enacted pursuant to § 10 of the New York State Municipal Home Rule Law, including but not limited to Subsections 1(i), 1(ii)a, 1(ii)d, and 4 thereof and is intended to supersede provisions of New York State law to the extent inconsistent with this local law except to any extent, and only to such extent, that the state legislature expressly shall have prohibited the adoption of such local law.

This local law is in accordance with the Town’s Comprehensive Plan adopted pursuant to New York State Town Law §272-a.

Section 2 – Purpose.

Accumulation of putrescible waste or of junk, both of which detract from a clean, wholesome, and attractive environment of vital importance to the general welfare of town residents and visitors, can be an attractive nuisance for children, can be noxious or offensive to people, can attract nuisance birds, rodents, flies, or other vermin (some of which may be vectors for the transmission of harmful microorganisms) including in proximity to neighboring residents or passersby, and can lead to contamination of soil and water.

It is the purpose of this local law to provide for the health, safety, and general welfare of persons and property in the Town of New Lisbon, by requiring that such accumulation of garbage and junk be avoided and, if it occurs, be remedied promptly.

Section 3 - Title.

This local law shall be known as “Law Prohibiting the Accumulation of Garbage and Junk.”

Section 4 – Definitions.

(1) “**Garbage**” means putrescible waste, which is waste that is or contains organic matter that is or upon decomposition becomes noxious or offensive to the senses of smell or sight or that is or could be an attractant to nuisance birds, rodents, flies, or other vermin.

For the avoidance of doubt, for purposes of this law, Garbage does not include waste from exterior property maintenance such as raked leaves, cleared brush, tree branches, and yard trimmings or compost piles that are maintained and managed to minimize attractiveness to nuisance birds, rodents, flies, or other vermin.

appliances, devices, fixtures or furnishings are broken, damaged, or otherwise unusable for their intended uses.
